Denver, CO • gpasini93@gmail.com • linkedin.com/in/giovanni-pasini

Front-end Developer | IT Consultant

IT Developer with over a decade of experience in the tech industry. I have held roles such as IT Manager, where I was responsible for overseeing networks and IT systems, and I am currently working as an IT Consultant, resolving technical issues and providing user support.

In 2022, I pursued my passion for programming by enrolling in a retraining program that took me to Taiwan for a Web Development Internship.

This experience allowed me to gain hands-on skills with modern technologies and strengthen my problem-solving abilities in an international environment.

To this day, I continue to study to improve my programming skills. I'm currently taking a course to learn TypeScript and Angular.

I am a motivated and adaptable individual, always looking for new challenges to grow professionally. I'm confident that my skills, combined with my determination, can bring value to any team I join.
